

# Shaping the Future of Primary Care

Marc Klau, M.D.

Jared Garrison-Jakel, M.P.H. Geoffrey Leung, M.D., Ed.M.

2010 Family Medicine Summit

The California Endowment

Los Angeles

February 9, 2010

How Do We Improve and  
Sustain Medical Student  
Interest in Primary Care?

What Do You Love about  
Family Medicine?

# What Do You Love about Family Medicine?

- Opportunity to develop relationships (x18)
- Breadth, variety, diversity (x11)
- Continuity of care (x10)
- Full-spectrum care, care of entire family (x7)
- Caring for underserved, providing access (x5)
- Opportunity to be a patient advocate (x4)
- Holistic approach / biopsychosocial model (x3)

# What Do You Love about Family Medicine?

- The patients (x3)
- Versatility and flexibility of the job; ability to change and evolve (x3)
- Community involvement (x2)
- Intellectual challenge (x2)
- Great colleagues (x2)
- Ability to make a difference in your patients' lives

# What Do You Love about Family Medicine?

- opportunity to provide different types of care in different settings (inpatient, outpatient, OB) (x2)
- Opportunity to work with residents (x2)
- FM is the best possible means to ensure the well being of communities and reduce health disparities
- Emphasis on prevention

# What Do You Love about Family Medicine?

- Hearing people's stories
- mission, mindset
- the broader impact you have on one patient by seeing those they live with

What are some positive things  
that your Family Medicine  
residency program or  
department has accomplished  
in the past year?

What are some things that your program has accomplished in the past year?

- EMR Implementation (x10)
- New / Improved curricula (behavioral medicine, leadership, policy, geriatrics, adolescent medicine) (x9)
- Greater emphasis on teaching and resident education (x5) (conferences, schedules, faculty engagement)
- Improved duty hour compliance with attending physicians taking more call (x4)

What are some things that your program has accomplished in the past year?

- New faculty (x2)
- More team-based care (X2)
- Residency curriculum committee
- Faculty / mentor guidance
- Integrative medicine
- Exceptional recruitment in the midst of transition

What are some things that your program has accomplished in the past year?

- More involvement of residents in the interview process of applicants
- More involvement in CAFP
- Addition of community-based training sites
- Making Family Medicine a required third year medical student rotation and one of the top-rated rotations at the medical school

What are some things that your program has accomplished in the past year?

- Addition of rural rotations
- Addition of resident portfolios
- Improved access as a result of CQI curriculum
- Group visits
- More school outreach
- PRIME-LC
- Creation of scholarships for primary care

What is Your Vision for  
Family Medicine?

# What is your vision for Family Medicine?

- That everyone has a family doctor, universal access (x 7)
- To be a field that is valued, respected, and recognized (x5)
- Providing the basis for the framework of a new health care delivery system
- The specialty that leads and directs health care at all levels

# What is your vision for Family Medicine?

- Having all medical students in the country exposed to Family Medicine
- We provide exceptional quality to satisfied patients and community and national leadership in health care
- To impact the health of those I live and work with
- Population-based management

# What is your vision for Family Medicine?

- Taking care of all patients in a variety of settings
- Improve the health of my patients and the community in which they live
- To serve as the foundation of our health care system
- To supply the leaders in the medical world and community
- Providing quality care by getting involved in the community where we practice

# What is your vision for Family Medicine?

- Lead the health care team
- FM should be the vanguard of change
- Further alignment of FM and social justice  
Taking care of patients in a holistic way
- More medical homes
- Happiness
- Team-based care

# What is your vision for Family Medicine?

- To return to broad spectrum care and to have Family Medicine be in the forefront to help unite the fragmented health care system
- Relationships and continuity
- To be the most important specialty in the USA

# What is your vision for Family Medicine?

- Greater emphasis on Family Medicine's importance in today's health care system
- Provide evidence-based and cost-effective care in a compassionate manner to diverse populations

What are some things that you would like to see your Family Medicine residency program or department accomplish this coming year?

# What are some things that you would like will accomplish this year?

- More community outreach / involvement (x9)  
panel management (x4) – who are my patients and how can I manage them as a panel?
- PCMH certification (x4)
- EMR & technology implementation (disease registry, email, etc) (x4)
- Group visits (x3)
- Improved financial support / stability / reimbursement (x3)

# What are some things that you will accomplish this year?

- More practice management / ICD-9 coding (x2)
- New fellowship (OB, geriatrics) (x2)
- Improved teaching and mentorship (by faculty and residents) (x6)
- Promote duty hour compliance, sleep, and well-being of residents (x2)
- Add faculty development curriculum
- More minority applicants for FM residency

# What are some things that you will accomplish this year?

- Improved access and continuity (x3)
- Larger clinic space
- For FP grads to qualify for specialty training
- More procedures (x2)
- More integration of preventive medicine and family medicine
- more interactive and problem-based didactics

# What are some things that you will accomplish this year?

- Better education of residents with regard to current events and health care reform
- Improve OB curriculum and teaching
- Integrating specialists into residency education
- More preventive medicine training
- Finalization of affiliations

What are some things that you will to accomplish this year?

- Team-based care
- Improve the image of Family Medicine
- Promote Family Medicine in different arenas
- More outpatient clinic experience in PGY1 year

What are some things that you will accomplish this year?

- Better balance of education versus service
- Have more time with patients (versus hamster wheel)
- Recruitment of students with public health background
